Hridayam by Belvo

GenZ Learning by the GenZ · Practical Skills for the Digital Economy

Hridayam is Belvo's premier digital academy designed to bridge the gap between abstract academic theory and high-standard digital agency execution. Every curriculum is authored, maintained, and mentored by active industry practitioners across software engineering, AI workflow automation, performance marketing, and product design.

11+	100%	Tamper-Proof	Agency-Backed
Core Disciplines	Project Deliverables	Digital Verification	Belvo Standards

Our Educational Philosophy

1. Live Agency Standard

Students build on real production stacks (React 19, TypeScript, n8n, Meta CAPI, Figma Tokens) rather than toy examples.

2. Portfolio-Ready Capstones

Every track culminates in a published deliverable, complete with public GitHub repositories, deployed apps, or live campaign ad sets.

3. Verifiable Credentials

Upon assessment completion, students receive cryptographically verifiable certificate IDs validatable directly on the Belvo verification registry.

Core Curriculums & Learning Tracks

Track 01 · Growth Marketing

28 Hours · 4 Modules

Ananya Sharma · Lead Media Buyer, Belvo Media

Performance Marketing & Social Media Strategy

Syllabus Focus: Meta CBO, Google Search & PMax, Server-Side CAPI, CAC/ROAS Unit Economics, Creative Testing Matrix.

Track 02 · Web & Software Dev

36 Hours · 5 Modules

Arjun Rao · Principal Architect, Belvo Tech

Full-Stack Web Development Foundations (Free)

Syllabus Focus: Modern React 19, TypeScript, RESTful API Architecture with Express, Database Persistence, JWT Authentication.

Track 03 · Design Systems

32 Hours · 4 Modules

Neha Verma · Head of Design, Belvo Studios

UI/UX Design Systems & Micro-Interactions

Syllabus Focus: Figma Variable Tokens, WCAG AA Accessibility, Responsive Spatial Grids, Interactive Micro-Interactions.

Track 04 · AI & Automation

24 Hours · 4 Modules

Vikram Patel · Systems Automation Lead, Belvo Automations

AI & Workflow Automation Masterclass

Syllabus Focus: Production n8n Pipelines, Structured LLM Tool-Calling, Webhook Event Ingestion, Resilient CRM Integrations.

Certification & Tamper-Evident Verification

Belvo credentials are authenticated against our centralized cryptographic database. Employers, hiring managers, and clients can instantly verify a student's authenticity by entering their certificate ID into the online verification portal.

Step 1: 100% Completion	All video modules, practical exercises, and code starter kits completed.
Step 2: Graded Assessment	Pass the comprehensive assessment with minimum 70% threshold.
Step 3: Verification Issuance	Unique ID registered on https://srakshitha0802.github.io/hridayam/#/verify-certificate

Admissions, Counselling & Campus Contact

Bengaluru Campus:	Hridayam Learning Campus, 4th Floor, Indiranagar 100ft Road, Bengaluru, KA 560038
Student Admissions:	admissions@hridayam.belvo.com | +91 98765 43210 (Mon-Fri 9:00 AM - 6:00 PM IST)
Online Platform:	https://srakshitha0802.github.io/hridayam/
Enquiry Advisory:	Submit the 'Start Your Learning Journey' enquiry form on our homepage for a personalized 1-on-1 curriculum consultation.
